E safety

Dear Parent/ Carer,

As you know, the safety of all our children is our paramount concern at all times.

We have become aware that some of our children are playing internet games using x box live. Children can be in danger playing these games by making contact with unknown people.

We urge parents to supervise their children's access to internet and gaming using hardware such as x box live. Please come and talk with us in school if you have any concerns or wish to know more on how you can keep your child safe.

One useful site is www.thinkuknow.co.uk

We are planning an internet safety week in February but have taken the precaution of giving all of our children an internet safety lesson this week to reaffirm how they can keep themselves safe.

Yours sincerely,

Mrs. L Corrall
Headteacher
